About the Region 2 PIO Network

The Region 2 PIO Network is a group of Public Information Officers from the 18 counties in Region 2 that will serve during times of emergency. The following disciplines are currently represented: county government, emergency management, law enforcement, fire, hospitals, public health, environmental health, private industry, schools, and elected officials. Goals of the group are to network, provide education, create templates, participate in drills, and locate other resources for effective risk communication. All are welcome to be involved in this free group.
